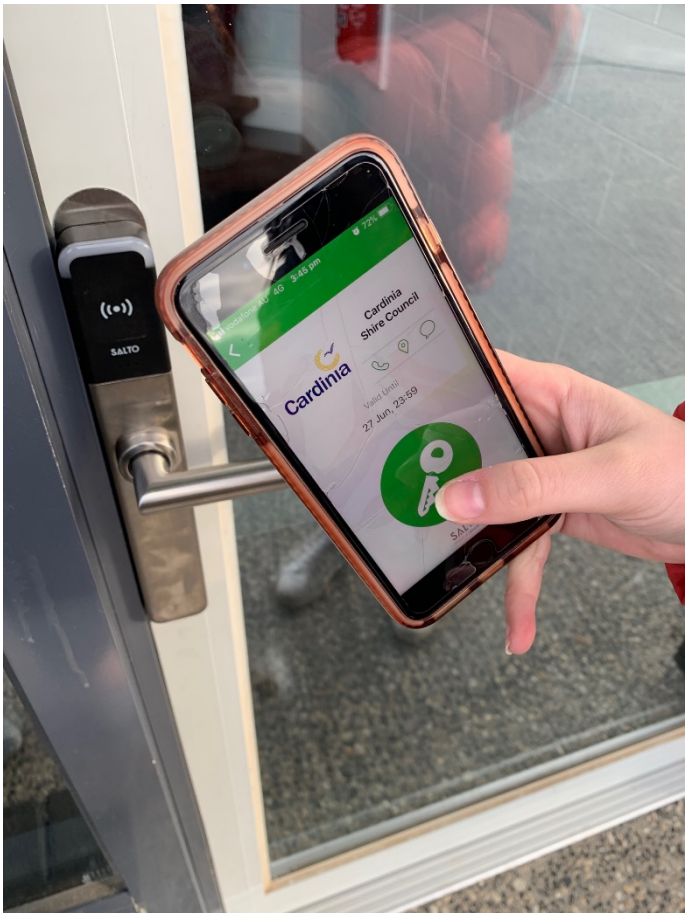
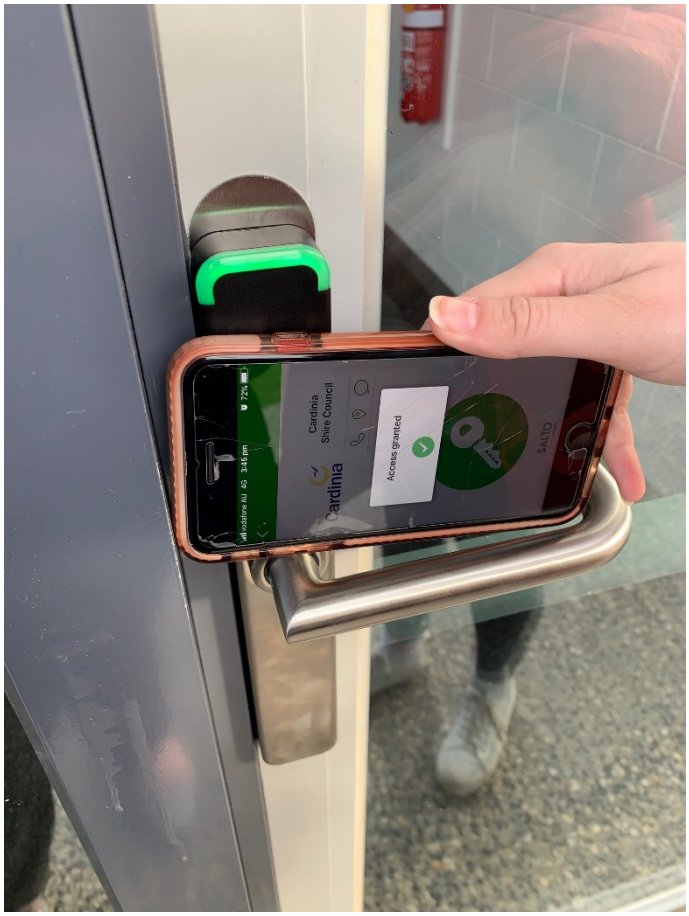
How to use SALTO Mobile app

General Access

1. Open the JustIN mobile app and select the CSC key. Press the large green button and hold the phone against the black section of the door. Once the light turns green, the door is unlocked.

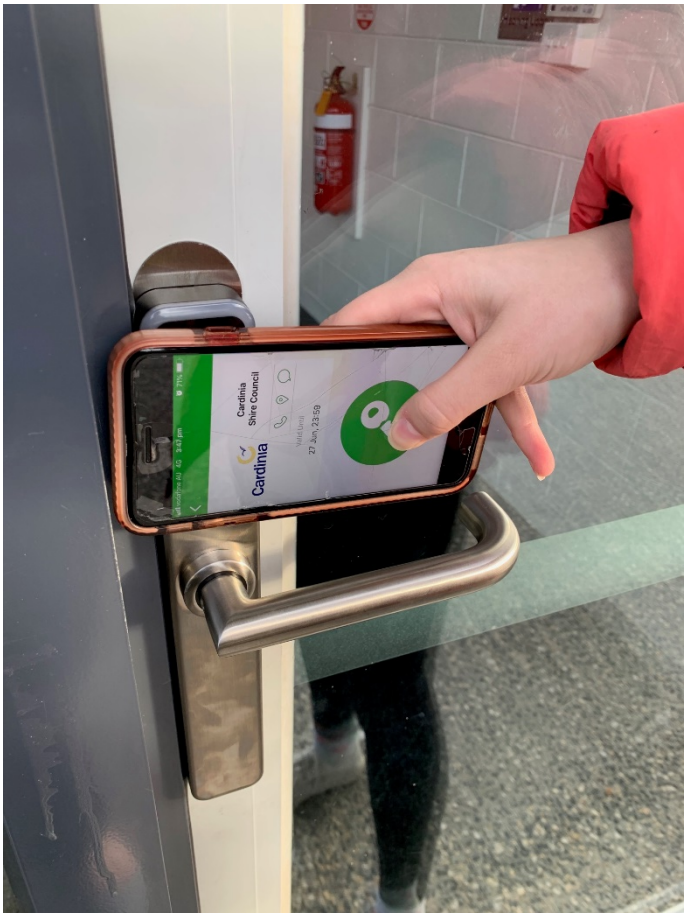


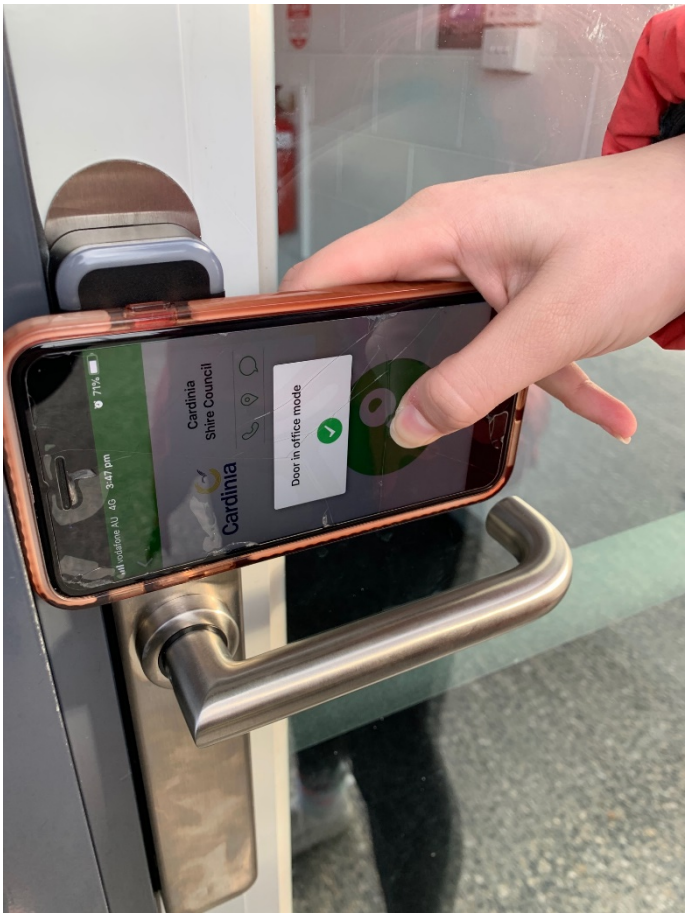


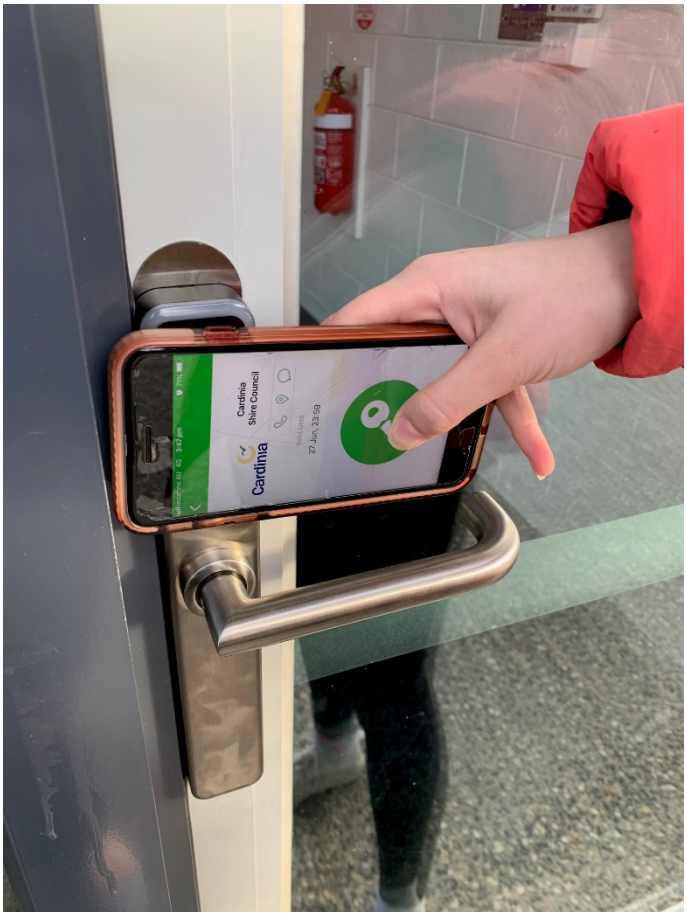
Office Mode

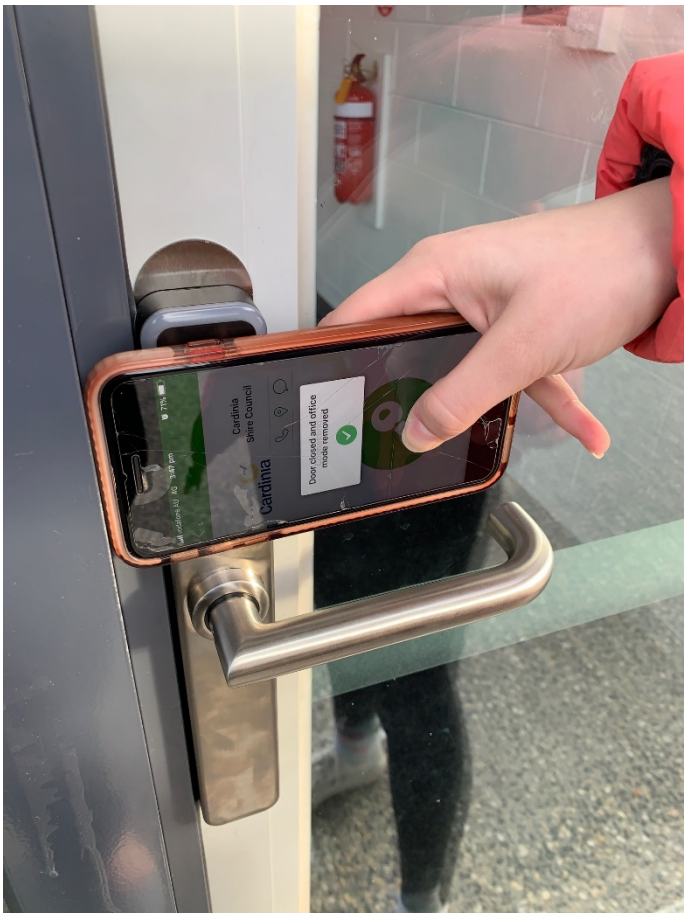
Office mode is a setting that enables the door to stay unlocked during use.

1. To put the door into ‘Office Mode’ open the app and hold down on the green key button while the phone is against the black section of the door. The light will flash green. Continue holding the phone against the door for around 10 seconds, the light will flash green again and the door is now in ‘Office Mode’









2. To take the door out of ‘Office mode’, open the app and hold down on the green key button while the phone is against the black section of the door. The light will flash green. Continue holding the fob against the door for around 10 seconds, the light will then flash red and the door will be locked.
